

Operations Chief Meeting on June 17, 1999
DCMC Dallas, Texas

Opening Remarks by Ms. Pettibone

Ms. Pettibone started off the meeting by thanking Col. Morris for hosting the Operations Chief Meeting. The attendees introduced themselves.

The District organizations are going to be evaluated as to their current structure and possible improvements to meet future goals. The Eastern District is currently being reviewed. The Western District to be reviewed next followed by International then HQ staff. Questions and answer sessions were conducted to evaluate current resources and their associated duties.

Ms. Pettibone addressed MRM#10, "Redesign Source Acceptance". She mentioned comments made during recent briefings to OSD officials that indicated we have not yet shown the senior leadership that we are where we need to be. They are still concerned that there is too much inspection going on by the government -- they believe that the commercial marketplace does not do inspection. Ms. Pettibone also mentioned that we need a different approach to our explanations and that she and the HQ staff are pondering one. She also asked for everyone to encourage CAO folks to ask the contractors they deal with how their commercial customers deal with them. We should all be able to explain how we're different and why.

Action Item Review, Mrs. Izzie Mooney

Action Items Closed as of the June Ops Chief Meeting:

OP0086- March Action Item #1
OP0087- March Action Item #2

OP0095- April Action Item #4
OP0096- April Action Item #5

Action Items Open as of the June Ops Chief Meeting:

OP0081- January Action Item #2
OP0089- March Action Item #4
OP0098- May Action Item #1
OP0099- May Action Item #2
OP0100- May Action Item #3
OP0101- May Action Item #4

Additional Action Items from the June Ops Chief Meeting:

June Action Item #1- (DCMC-OB/ Mr. Maurice Poulin): Revise the approach of Certification/ Re-certification of Non Destructive Testing. Use the Certification PAT model briefed by Ms. Georgeanna Adams as a baseline. (Use the briefing given at the Executive Counsel.) Explain why the current model doesn't work. Identify what you believe needs to be done. Explain and justify why the current certification/ re-certification needs to be different for NDT.

June Action Item #2- (DCMC-OG/ Ms. Georgeanna Adams): Schedule briefing at the August Ops Chief Meeting to update how the certification progress is going. Also address how you will get the message out. (Here's where we are going and this is how we will get there.) Address a transition strategy.

June Action Item #3- (DCMCC-C/ Mr. Bill Gibson) Reference the Briefing on EVMS Maturity Model, Test Results, the Timeline Chart, Phase 2 - Deployment. Mr. Gibson to provide test date. This to be a bullet after "Incorporate CAO comments (Sep 99).

Topics Covered During the June Ops Chief Meeting:
